

SOLVEX

Solvent Based Cleaner

PRODUCT DESCRIPTION

SolveX is a premium solvent based cleaner designed to be quick drying and smear free on all hard surfaces. It removes glues, inks, permanent marker, pencil, pen, silicone, tar and more. It has no effect on laminates, formica, and two pack paints, as well as ABS and PVC edging.

DIRECTIONS FOR USE

Application can be through a hand sprayer (Chemical resistant trigger recommended), Hand held pump sprayer or directly on to a white cotton rag and applied to the surface that is being cleaned.

Some surfaces can be wiped clean immediately and other areas may need SolveX to breakdown the solution being cleaned. ie: glues, adhesives and tar.

Caution: SolveX will make the dye run in coloured rags. Cabinet makers Installers, signage removal should use white cotton rags when wiping down surfaces.
